# King County iMap Layers

## Listed alphabetically

rev. September 23, 2015

**King County**  
**GIS CENTER**

Layer Name	Layer Group
Address labels	King County Address Points
Address points	King County Address Points
Agricultural production district boundary	Planning
All noxious weeds (2014 survey year)	Noxious Weeds
Alpine fans less likely subject to debris flows	Landslides / River Corridor Mapping / Fans and Debris Flows
Alpine fans more likely subject to debris flows	Landslides / River Corridor Mapping / Fans and Debris Flows
Areas susceptible to groundwater contamination	Groundwater
Arterial streets	King County Roads
Basin condition (2005 CAO)	Environmentally Sensitive Areas
Bridges maintained by King County	King County Roads
Channel migration hazard areas	Environmentally Sensitive Areas
Channel migration hazard areas	Hydrography
Chinook distribution	Environmentally Sensitive Areas
Cities and unincorporated areas	Administrative Areas
Cities and unincorporated areas labels	Administrative Areas
Class A and B designate weeds (2014 survey year)	Noxious Weeds
Closed depressions (where water may pond)	Landslides / River Corridor Mapping / Deep-Seated Landslides
Coal mine hazard (1990 SAO)	Environmentally Sensitive Areas
Community Service Areas	Planning
Comprehensive plan land use	Planning
Congressional Districts	Electoral Districts
contours - 100 foot	Elevation Contours
contours - 1000 foot	Elevation Contours
contours - 5 foot (below 1000 feet) and 10 foot	Elevation Contours
contours - 500 foot	Elevation Contours
County lands invasive plants survey (CLIPS)	Noxious Weeds
Countywide growth pattern	Planning
Critical aquifer recharge areas	Groundwater
Drainage basins	Hydrography
Drainage complaints	Stormwater Services
Drainage studies	Stormwater Services
Erosion hazard (1990 SAO)	Environmentally Sensitive Areas
Farm and agricultural parcels	Property Layers / Current use taxation properties
Farmland preservation properties	Property Layers
FEMA preliminary 100-year floodplain	Flooding info
FEMA preliminary 500-year floodplain	Flooding info
FEMA preliminary floodway	Flooding info
Fire Protection Districts	Electoral Districts
Flow control	Stormwater Services / Surface water design manual
Flood phases	Flooding info
Flood photos 1990 decade	Flooding info / Flood photos
Flood photos 2000 decade	Flooding info / Flood photos
Flood photos 2010 decade	Flooding info / Flood photos
Flood photos pre-1990 decade	Flooding info / Flood photos
Forest parcels	Property Layers / Current use taxation properties
Forest production district boundary	Planning
Freeways	King County Roads
Groundwater management areas	Groundwater
Groundwater quality sampling sites	Groundwater
Groundwater sources	Groundwater
Headscarp and flanks (cliff like slopes on top and side of a slide)	Landslides / River Corridor Mapping / Deep-Seated Landslides
Historical Landslides	Landslides / River Corridor Mapping
Hospital Districts	Electoral Districts
Hydrogauges	Hydrography
index contours - 100 foot	Elevation Contours
index contours - 500 foot	Elevation Contours
Interim potential annexation areas	Planning
King County Council Districts	Electoral Districts
King County District Courts	Electoral Districts
King County property interests	Property Layers
Kroll map page	Reference Layers
Lake buoy	Hydrography
Lakes and large rivers	Hydrography
Landslide body (where debris from a slide has gone)	Landslides / River Corridor Mapping / Deep-Seated Landslides
Landslide hazards	Stormwater Services / Surface water design manual
Landslide hazard (1990 SAO)	Environmentally Sensitive Areas
Landslide hazards, incorporated KC (1990)	Landslides / Potential Landslide and Steep Slope Hazard Areas
Landslide outline (polygon contains all features of deep-seated landslide)	Landslides / River Corridor Mapping / Deep-Seated Landslides
Legislative Districts	Electoral Districts
Local streets and roads	King County Roads

Layer Name	Layer Group
Lowland fans	Landslides / River Corridor Mapping / Fans and Debris Flows
Most widespread noxious weeds (2014 survey year)	Noxious Weeds
Neighborhood drainage projects	Stormwater Services
Noxious weeds data (2014 - 1999 survey years)	Noxious Weeds
Parcel address labels	Property Layers
Parcel number labels	Property Layers
Parcels	Property Layers
Park and Recreation Districts	Electoral Districts
Parks	Parks and Trails
Ponded water	Landslides / River Corridor Mapping / Deep-Seated Landslides
Potential landslide hazard areas (2016)	Environmentally Sensitive Areas
Potential landslide hazard areas (2016)	Landslides / Potential Landslide and Steep Slope Hazard Areas
Potential landslide hazard areas 50-foot buffer (2016)	Environmentally Sensitive Areas
Potential landslide hazard areas 50-foot buffer (2016)	Landslides / Potential Landslide and Steep Slope Hazard Areas
Potential steep slope hazard areas (2016)	Environmentally Sensitive Areas
Potential steep slope hazard areas (2016)	Landslides / Potential Landslide and Steep Slope Hazard Areas
Property sales in the last 3 years	Property Layers
Public benefit rating system and timber land parcels	Property Layers / Current use taxation properties
Public land survey - sections	Reference Layers
Public land survey - townships	Reference Layers
Publicly owned lands	Property Layers
Regional trails	Parks and Trails
River facilities	Flooding info
River gages	Flooding info
"Roadlog" - Roads maintained by King County	King County Roads
Rock avalanche deposit	Landslides / River Corridor Mapping / Rock fall
Rock fall potential	Landslides / River Corridor Mapping / Rock fall
Rural Library District	Electoral Districts
School Districts	Electoral Districts
Seattle Council District	Electoral Districts
Seattle School Board Director Districts	Electoral Districts
Seismic hazard (1990 SAO)	Environmentally Sensitive Areas
Sensitive area notice on title	Environmentally Sensitive Areas
Sewer Districts	Electoral Districts
Shallow Debris Slides	Landslides / River Corridor Mapping
Shoreline condition (2005 CAO)	Environmentally Sensitive Areas
Shoreline management designation	Planning
Sole source aquifer	Groundwater
Stormwater facilities	Stormwater Services
Stream (1990 SAO)	Environmentally Sensitive Areas
Streams	Hydrography
Study Limits	Landslides / River Corridor Mapping
Surface water engineering projects	Stormwater Services
Thomas Brothers map page	Reference Layers
Thomas Brothers map row/column	Reference Layers
Toe of landslide along river (where bottom of slide is likely subject to erosion by a river)	Landslides / River Corridor Mapping / Deep-Seated Landslides
Top of internal landslides (cliff like slopes on top of a smaller slide within a larger slide)	Landslides / River Corridor Mapping / Deep-Seated Landslides
Top of main landslide (cliff like slopes on top of a slide)	Landslides / River Corridor Mapping / Deep-Seated Landslides
Traffic cameras maintained by King County	King County Roads
Tributary basins (2005 CAO)	Environmentally Sensitive Areas
Unincorporated KC zoning	Planning
Urban growth area	Planning
Voting Precincts	Electoral Districts
Water and Sewer Districts	Electoral Districts
Watercourses (paths that water can travel downslope)	Landslides / River Corridor Mapping / Deep-Seated Landslides
Water Districts	Electoral Districts
Water quality	Stormwater Services / Surface water design manual
Water resource inventory areas	Hydrography
Water service area	Groundwater
Wellhead protection areas - five years time of travel	Groundwater
Wellhead protection areas - one year time of travel	Groundwater
Wellhead protection areas - ten years time of travel	Groundwater
Wetland (1990 SAO)	Environmentally Sensitive Areas
Wildlife network	Environmentally Sensitive Areas
Zip Codes	Administrative Areas
Zoning labels	Planning

See other side for a list of iMap layers in Layer List panel order (the order in which they are displayed in iMap).
