Background

Rock Mountain Products submitted a code interpretation on March 17, 2016. Due to a staff illness, this code interpretation has taken longer than the normal sixty days to process.

Code Enforcement is working on several issues with regard to Rock Mountain Products, which is located at 24808 NE Redmond-Fall City Road (tax lot 2325069031). One issue is how to classify the business. Rock Mountain’s website identifies the business as follows:

Rock Mountain Products is a full nursery and landscape stone business. We carry pond equipment, pumps (including FlowRanger, Danner Hurricane, Alpine, Cyclone, Teton, PondMax and Surepro), liners, filters, pvc fittings, Koi, goldfish, aquatic plants, pond care products, over 500 potted bamboo plants, Iron Mountain Faux Columns, pots, fish products, garden art, outdoor furniture and more.

We continue to carry an expansive inventory of all products on over seven acres including, landscape stone products; Pennsylvania Bluestone, Idaho Quartzite, China Quartzite, Slates and Granite, Montana Slates, Various River Rock, Column Rock and Fountains, Iron Mountain, Granite, Dimensional Stone, Stone Benches/Tables, Mexican and Indonesian Pebbles, Rubble Stone, Stone Slabs and Specialty Rock, Dish Rocks and Bird Baths. We are conveniently located east of Seattle just minutes from Redmond and Fall City.

The site is zoned RA-5 (Rural Area, minimum 5 acres).

Discussion

A retail nursery (retail nursery, garden center, farm supply store) is permitted as an outright use and a conditional use in an RA zone, subject to the following development condition:

KCC 21A.08.070.B.1.a. As a permitted use, covered sales areas shall not exceed a total area of two thousand square feet, unless located in a building designated as historic resource under K.C.C. chapter 20.62. With a conditional uses permit, covered sales areas of up to three
thousand five hundred square feet may be allowed. Greenhouses used for the display of merchandise other than plants shall be considered part of the covered sales area. Uncovered outdoor areas used to grow or display trees, shrubs, or other plants are not considered part of the covered sales area;

b. The site area shall be at least four and one-half acres;
c. Sales may include locally made arts and crafts; and
d. Outside lighting is permitted if no off-site glare is allowed.

KCC 21A.08.060.B.34 Construction and trade in the RA zone is a permitted use, subject to Development Condition 34:

34. Limited to landscape and horticultural services (SIC 078) that are accessory to a retail nursery, garden center and farm supply store. Construction equipment for the accessory use shall not be stored on the premises

SIC 078 is defined as:

- Ornamental tree planting, pruning, bracing, spraying, removal, and
- Tree trimming for public utility lines

As it exists today, Rock Mountain Products does not meet the definition of “landscape and horticultural services.” The bulk of the products identified on the website describe retail and wholesale marketing and sale of rock products. These products form the overwhelming majority of the business onsite and are not an “accessory use.”

The service provided may be to assemble the rock products at a client site. The services do not involve the planning and installation of plants, lawn maintenance and care, or a variety of ornamental shrub and tree services, as defined by SIC 078.

Conclusion

Rock Mountain Products does not meet the definition of “landscape and horticultural services” or of an “accessory use” and is not permitted in the RA-5 zone.
